

ECO-CONSCIENCE PLEDGE

I know that my life is a part of nature.

I know that all life on our planet is connected.

I know that everything I do influences and affects the whole world, both now and for the future.

I have a voice inside that knows what is right. The voice inside is my conscience.

I pledge to always listen to my conscience. I will always think about how my actions affect everything around me – the people, the animals, the plants, the earth, the water, the air, the sky – everything.

To help my family, my community and my world, I pledge to live my life as an Eco-Conscience for Nature and the world.

As an Eco-Conscience, I am a voice that never forgets. I am a voice that always helps to remind those around me that Nature is not different from us; that the planet is our home, that we must always care for Nature and treat our home with respect and love.

Eco-Conscience

Jack Eastman, Sky Factory Eco-Conscience

Ed Malloy, Honorable Mayor of Fairfield
